

### Make3 Digital Tools

Make3 employs a solution based approach to technology. Utilizing advanced hardware, the latest Building Information Modeling (BIM) software and the most current graphic presentation software, Make3 offers unparalleled client collaboration and project coordination services.

Make3 has transitioned to 100% Autodesk Revit enabling Make3 to analyze concepts and maintain consistency from schematic design to construction administration. Unlike many firms, Make3 uses BIM on all projects.

### Selected Projects Complete - 100% BIM

Georgia Institute of Technology McCamish Basketball Arena / Atlanta, Georgia
